

The background of the slide is a dark, atmospheric photograph of a museum gallery. On the left, a large classical statue of a woman in a draped dress stands on a pedestal. In the center, another statue is visible in the shadows. To the right, a person is seen in silhouette, looking at a wall. Dramatic light rays stream in from a window on the right, creating strong shadows and highlights across the floor and walls. The overall mood is mysterious and artistic.

Game Overview

- First-person psychological horror game
- You play as a night security guard in the Marble Museum
- Strange anomalies occur each shift
- Your goal: identify and neutralize them before it's too late

Gameplay Loop & Entities

The player:

- Begins each shift at the guard post
- Reads instructions to learn about anomaly behavior
- Explores the museum and identifies the active entity
- Uses tools to solve paranormal anomalies
- Survives the shift and progresses to the next shift
- Each shift has a different combination of entities

Success & Failure

- Shift Cleared When:
 - You identify and stop the anomaly correctly
 - You return to the guard post safely
- Game Over When:
 - You fail to diffuse the remaining anomalies within 10 minutes
 - An entity catches you

Whispering Statue

- An ancient Egyptian statue that emits disturbing whispers
- Solution:
 - Locate the UV lens
 - Attach it to your flashlight
 - Aim UV light at the statue for 5 seconds

Ancient Gramophone
